Full Stack Software Engineer

Denver, CO | 720-471-5663 | fjr0530@gmail.com | www.linkedin.com/in/frank-josef-rauen

github.com/Frank-Rauen | Portfolio: <https://frank-rauen-portfolio.herokuapp.com/>

SKILLS:

HTML5, CSS, Javascript, Python, PHP, ReactJs, NodeJs, Django, RESTful API, Wordpress, Git, Bash, Heroku, MongoDB, MySQL, PostgreSQL, Java 8, JavaFX

PROJECTS:

Find-A-Brew: <https://github.com/Frank-Rauen/Frank-Rauen.github.io>

Designed a Javascript app that consumes a third party API and dynamically renders the API data.

Corona Times: <https://corona-times.herokuapp.com/>

Created a Django app that allows for Blogpost and Comment functionality and consumes the google news API to provide the most up to date information on COVID-19.

Bartender's Best Friend: <https://the-bartenders-best-friend.herokuapp.com/>

Developed a **React.js** app that consumes a third party API for cocktails. Designed to display them by type, alphabetically, and a randomizer function is implemented as well.

Instrument Collector: <https://instrumentcollector.herokuapp.com/instruments/>

Engineered a Django app to catalogue the instrument collection of an individual. Allows for one to many relationship with the user and many to many with associated products.
